

AEROSPACE MANUFACTURING CERTIFICATE

AEROSPACE MANUFACTURING CERTIFICATE

If you are in classes like this now or in the future—or have taken them in the last semester—you may be eligible to enroll in the Utah Aerospace Pathways program.

The Utah Aerospace Pathways program is brought to you by partners like Boeing, Harris, Hexcel, Hill Air Force Base, Janicki, and Orbital ATK, plus education partners including your high school, Davis Applied Technology College and Salt Lake Community College.

This team is offering you an incredible opportunity to jump-start your future. And on top of all of this, if you decide you want more training, certifications, or even a 2- or 4-year college degree, tuition help is a real possibility.
